Parents and Other Providers

- Parents and doctors choose to space out the number of shots given
- Lack of knowledge of services
- Parents afraid of side effects of vaccinations
- Parental concern about the effectiveness of vaccine (skepticism)

Staff

- May not have complete immunization records
- Parents uneasy with new vaccines
- Staff does not consistently refer to WIR when scheduling appointments
- Declination form not offered or documented on WIR
- Information about vaccines needed is not provided

Missed Opportunities

- Access of vaccines (not at site) Varicella - Berlin
- Follow-up calls for “no-shows”
- Hep A is not recorded on WIR
- Difference between school requirements and ACIP recommendations
